À PROPOS DE COOLDURA

Cooldura est une marque B2B de l'entreprise néerlandaise VEBA, spécialisée dans les solutions de refroidissement pour l'hôtellerie et l'événementiel. Nous croyons que l'hospitalité commence dans le réfrigérateur - garder les boissons fraîches et les aliments bien conservés est essentiel pour un service fluide. Nos produits, allant des réfrigérateurs vitrines aux coffres frigorifiques, sont conçus pour offrir

efficacité, mobilité et facilité d'utilisation. Avec un accent sur la fiabilité et la fonctionnalité, Cooldura aspire à être votre partenaire de confiance pour les meilleures solutions de refroidissement. Découvrez notre gamme complète de produits dans ce catalogue et trouvez la solution de refroidissement idéale pour vos besoins!

BRAND VALUES & BASICS

Brand values

Reliability

Businesses need refrigeration they can depend on. Cooldura products are designed for consistent performance, keeping stored goods at the right temperature at all times.

Efficiency

Our cooling solutions help businesses optimize storage and energy use, supporting smooth daily operations.

Functionality

Every Cooldura product is designed with practical use in mind, ensuring that businesses can easily incorporate them into their workflow.

Product values

Optimized storage

Adjustable shelving and smart layouts ensure businesses can organize products efficiently.

Ease of use

Cooldura products are built with intuitive controls and easy maintenance to support hassle-free operations.

Versatility

Our refrigeration solutions serve various sectors, from restaurants and bars to event catering and retail.

Easy transport

Many Cooldura products are designed with transportability in mind, including models that come with matching trolleys for effortless mobility.

WHY

Hospitality starts from within the fridge. At Cooldura, we know that keeping drinks cold and food fresh is at the heart of any successful event or hospitality business. Whether it's a busy bar, a large-scale event, or a rental service supplying refrigeration for parties, reliable cooling is essential. Our goal is to provide practical and effective cooling solutions that keep operations running smoothly in fast-paced environments where quick service and convenience are key.

HOW

Cooldura designs refrigeration solutions that are tailored for dynamic hospitality and event settings. Our products are easy to transport, quick to set up, and simple to use - whether behind a bar, in a catering tent, or at a festival. With a focus on efficiency and flexibility, we ensure businesses have access to cooling equipment that seamlessly integrates into their operations, allowing them to focus on serving customers.

WHAT

Cooldura specializes in refrigeration and cooling solutions designed for bars, catering businesses, and rental services. Our product range includes bar coolers, refrigerators, bottle fridges, and mobile cooling units - ideal for

keeping drinks chilled and ingredients fresh at any location. Whether for a restaurant, a temporary event setup, or a rental fleet, our cooling solutions ensure optimal storage and organization in any setting.

BRAND PURPOSE

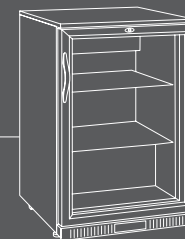

At Cooldura, we believe that effective cooling is essential for businesses that rely on fresh products and efficient service. Our mission is to support businesses by providing functional and accessible refrigeration solutions that enhance daily operations and keep products at ideal temperatures.

VISION

We envision a world where bars, catering businesses, and event rental companies have access to efficient and flexible cooling solutions that enhance their workflow. By focusing on portability, ease of use, and adaptability, Cooldura aims to be the go-to refrigeration partner for the hospitality and event industries.

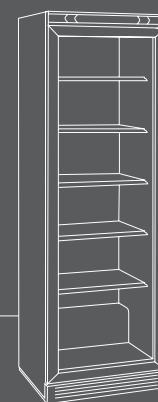

MISSION

Our mission at Cooldura is to offer hospitality businesses and event rental companies refrigeration solutions that prioritize efficiency, mobility, and functionality. We are committed to delivering products that support seamless service in fast-moving environments, ensuring drinks stay cold and food stays fresh wherever they are needed.

DISPLAY COOLERS

Glassdoor refrigerator 373L

Hospitality begins from inside the fridge! Because there is nothing better than being able to offer guests a nice cold snack or drink. The S3BC-I glass-door hospitality refrigerator is a forced-cooling refrigerator. This means that the fridge is cooled in the fastest way possible. The refrigerator has a ventilator that spreads cold air throughout the whole fridge. Besides this high-quality way of cooling, the design and glass door give the refrigerator a stylish and attractive look. In addition, the S3BC-I has an automatic defrost system and it is possible to lock the refrigerator. This fridge has a gross volume of 373 L. All these features make this glass refrigerator suitable for both commercial and private use.
